That's why it is the oldest and most famous school of its kind.

## SCHOOL OF THE AIR

The Alice Springs School of the Air is for children living in Central Australia. These children live in an area which is miles away from cities and towns. They are active, healthy, and have lots of free time. They learn about animals and plants of the Outback. Most of them learn to ride horses at an early age.

The School of the Air simply helps these children learn about the outside world. Children do not go to school every day. They have 'on air lessons'. Students listen to interesting radio lessons and watch educational videos. Teachers send them their homework through e-mail and students send it back.

- What did the Vikings (both men and women) do in winter? .....
- Who was their favourite god?.....
- What was the capital of their kingdom? .....
- Where is the Jorvik museum? What is its name? .....

The Vikings sailed the seas, attacked towns and stole treasures all over Europe between the years 800 and 1100. They started from Scandinavia and attacked many countries in Europe. They settled in Britain, Ireland and France. They also crossed the Atlantic Ocean and arrived in Iceland and Greenland. They discovered North America but they also travelled east to Russia and south to Arabia.

They were good farmers and excellent shipbuilders. They used their ships for wars. They also used them to carry people and goods to new lands. In winter, when there was not much farm work to do, they stayed at home and did other interesting jobs. Men made swords to use them in battles. The Vikings liked swords so much they often decorated themselves with gold and gave them names. Women cooked food and made clothes, shoes and jewellery for them, their children and their husbands. The Vikings believed in many gods and goddesses. Their

favourite was Odin, the god of the dead!

In 866 the Vikings captured an Anglo-Saxon town. They called it Jorvik and it was the capital of the Viking kingdom for 200 years. They made Jorvik rich and one of the most famous cities in Britain. Some years ago, archeologists discovered part of that Viking town in York, the modern city of Jorvik. They found many things such as jewellery, coins and clothes. If you ever go to York and you want to travel back in time and see how the Vikings lived, visit the Jorvik Viking Centre!

## The mysterious Indus civilisation

We know very little about this civilisation, but what we know is amazing! Over 4,000 years ago, in the Indus Valley, people built huge cities, with straight streets, and brick homes with private baths! Kids played with toys and women wore lipstick!

1

How do we know this information about the Indus? In 1922, archaeologists found the remains of two ancient cities, Harappa and Mohenjo-Daro. The civilisation is called the Indus Valley Civilisation (or sometimes, the Harappan civilisation). It existed from about 3000 BC to about 1500 BC, about the same time as the Egyptian and Sumerian civilisations.

2

The houses were one or two storeys high made of brick, with flat roofs, and were all the same. Each house was built around a yard. There were no windows on the outside walls, only on the inside. Each home had its own private bathroom!

3

People were very good farmers. They grew peas, melons, wheat, and dates. They raised sheep, pigs and zebus (a kind of cow). Each town had a large central building where they kept crops for all in the town to enjoy. They also caught fish in the river with fish hooks! The people used camels, oxen and elephants to travel over land. They had carts with wooden wheels. They also had ships to sail around the Arabian Sea.

4

Men and women dressed in colourful robes. Women wore jewellery of gold and precious stones!

5

They had a written language but we cannot understand it. The ancient Indus civilisation mysteriously disappeared around 1500 BC. No one knows what happened to these people, or where they went.

## Tips for a 'Waste-Less' School Year

1. Use products made from recycled materials. You can use refillable pens, rechargeable batteries, and scrap paper for notes. Recycling and reusing helps the environment and saves you money.
2. Before starting a new school year, check what things you have already got. You can reuse notebooks and old binders. Share your used books with friends, relatives, or younger schoolchildren.

3. Use non-toxic products, such as batteries with less mercury, vegetable-based inks, and water-based paints.
4. Use products that can last for long. Backpacks and notebooks can be reused for many years. Don't buy new ones every school year.
5. If you bring your lunch to school, put it in a reusable plastic or cloth bag, or lunch box. Bring drinks in a thermos instead of bottles or cartons.
6. If your parents drive you to school, try carpooling or take the bus. Try walking, biking, or skating. You can have less air pollution and less traffic in your area.
7. Share the message with your friends and schoolmates. Waste less by reducing, reusing, and recycling. Volunteer for, or start an environmental club or recycling project in your school. Work with your teachers and friends to find ways to tell everyone in your area to make waste reduction a part of their everyday lives.

*Hey! Are you serious about that, or just joking??*

Do you write e-mails or send text messages on your mobile? Do you know when your friends are serious, happy or sad, excited, or bored?

"Talking" through messages is really cool. It's fast, it's cheap and you don't need stamps. But, something is missing. When we talk to each other in person, we understand a lot by the expressions on our face or by the tone of our voices. Can we show feelings in our messages?

The solution is "emoticons"! ... "Emoticons" is a new word made up of two other words,

emotions, that is feelings, and icons. When you put them together you get emoticons which are little face-pictures made out of letters, numbers, or punctuation marks from our computer or mobile keyboard. So why are they good? Emoticons let people know how you feel without saying 'I am happy' or 'I am bored'. Sometimes emoticons describe things, like what a person looks like or what they're doing.

It's a bit difficult in the beginning but once you get used to them, you'll see that emoticons are a fun way to get your message across! ...
