Lesson 1

1 Where are the students in the photos? Discuss in pairs.

2 Look at the pictures and the tickets. Can you imagine the students’ daily programme?
A group of Greek students from Syros is going on a summer course to England in July. Alex is one of them. Read his e-mail to his Italian e-friend, Pedro and complete their weekly programme.

Hi Pedro,

I’ve got great news! In July, I’m spending a week in London, doing an English course at a well-known English college, Royal Holloway. Here is a photo of it! The campus looks great, doesn’t it?

There are lessons almost every morning (boring!) but lots of trips too. On our first day, on Monday, we’re taking a placement test so there aren’t any lessons on that day. After the test, we’re visiting the British museum to see the Parthenon Marbles. I can’t wait! I’ve heard so much about them at school.

On Wednesday evening, we’re going to the theatre to see ‘Evita’, the famous musical.

On Tuesday and Thursday, we’re staying in. Lessons and sports. Tuesday is disco night and on Thursday there’s karaoke. Cool?

Friday afternoon, we’re going to Thorpe Park, a huge amusement park full of exciting rides (jealous?). Saturday, we’re visiting Cambridge and spending the whole day there. We’re flying back home on Sunday 17.

What about your plans? Where are you going in July?

How about coming to my place in Syros in August?

Write soon!

Alex

Can’t sleep. I’m staring out of my bedroom window. Ten days to the party! I’m going to wear that fantastic dress I bought yesterday and I’m going to invite Tim, the boy who lives next door. I see him every morning. He rides his bike to school. I think he’s gorgeous! He might like me too. I hope he does! And guess what! Mum and dad are eating out on the day of the party! Lalalala… life is fabby, fab, fab

1 Silou, from Indonesia, is sometimes worried about the future. How do you feel? What might life be like after 100 years or more? In small groups, write down words to describe LIFE IN THE FUTURE. Then, share your ideas with the rest of the class.

2 In Silou’s class, the students wrote an article about life in the future for their English newspaper. Read it to check which of the above (1-6) aspects there are. Have the writers mentioned any of your predictions?

3 Silou sent the article to Andrew’s site to share it with their e-friends. Andrew wants to add headings over each idea. Here is his list. Read the article again and choose the most suitable heading for each technological development (1-6). There are two extra headings.

   Tiny cameras        Brain Power        ‘Watch me’        No car? No problem
   Cheap Travelling    See them live!      Future cities      Can you hear me?

4 Will teenagers have more fun in the future? Say why.  

**Task 37**  p.204
Lesson 3

**TEEN newspaper**

*What will life be like in the year 2525?*

Take a look at some guesses about technological developments in our lifetime - and beyond.

1. You’ll wear an interactive video watch and at the touch of a button, you’ll talk to people next door or in another country. Don’t forget to smile because a video image of your face will also appear.

2. You won’t need one. You’ll go to your Personal Station where you will type your destination on a special computer. A door will open to a small taxi that will take you to your stop.

3. Huge domes will protect all cities on Earth. In this way, we will enjoy the sun all year round and there won’t be any pollution. Some cities will float in the air above the oceans so tourists will use air lifts to reach them.

4. Within a thousand years you will just think of a command and robots or other machines will obey it. Computers will recognise not only your voice but also your thoughts. For example, you will think “Sit” and your robotic dog will immediately sit next to you.

5. In some years, you won’t need to go to the theatre, to a concert or to a football match. You’ll watch any event live on your virtual reality screen without missing anything. Teenagers will feel they are in a crowded stadium, dancing to the rhythm of the latest hit. At the same time, parents won’t worry about their children’s safety.

6. The world is getting really noisy. That’s why in the future we’ll all cover our walls with a special kind of wallpaper which will block outside noise. Are you learning how to play the piano? Does your neighbour complain about the noise? Don’t worry. Quite soon, you’ll be able to play music whenever and anywhere you like without bothering anyone.

In the year 2525!

Speaking

Get in two groups. Each group makes a list of films and/or books which are about the future. Choose a film or a book from your list and ask a member of the other group to use pantomime in order to help his/her partners guess its title. If they guess right, they win a point. Then, change roles and play the game again.

RULES OF THE GAME!
- Use only sign language to mime the film title. If you speak, your group misses a turn.
- Use only English to guess the title. If you don’t, your group misses a turn.

Guess the title

Get in two groups. Each group makes a list of films and/or books which are about the future. Then, change roles and play the game again.

**The Oscars**

*by Susan Dukes*

**What are they?**

The Oscars are actually the most prestigious award anyone in the film industry can win. They started in 1929 and nowadays everybody looks forward to this glamorous annual event. They are called the Oscars after the golden statue which is given out to the winners.

**What is the Academy?**

The Oscars are organised by the Academy of Motion Picture Arts and Sciences which is made up of professionals in the film biz. The Academy was set up in 1927 with just 36 members, but now there are more than 6,000 members because all Oscar winners are asked to become Academy members and vote for the next Oscars.

**What categories are there?**

The most important Oscar is the Best Picture prize which is given to the best film of the year. But the Best Actor and Best Actress in a leading role are really important too. Oscars are also given out for categories like direction, music, costumes, make-up and sound.

**Some Oscar Facts**

- Walt Disney has won more Oscars than anyone else. He was nominated for 64 and won 26!
- The most Oscars ever won by a single film are 11. That’s happened three times, with Ben Hur (1959), Titanic (1997) and The Lord of the Rings: The Return of the King (2003).

This year, the president of the jury for the Oscars Sean Penn (the famous American actor) said in his interview to ‘Le Monde’: “We should not give the Oscars to films which have become box office hits because of very good marketing and the star system. We should try to find what will stay with us forever.”

4 Read the extract from Sean Penn’s interview and say if you agree with him or not. What qualities in a film or performance bring an Oscar? Do you think that the winner is always the best?
"And the winner is ...!"

Dear all,
Here’s the spring issue of our school newspaper. We had a great time preparing it. Have a look and tell us what you think.

Petra & Hans
PS. If you like the idea of a school newspaper, read our article. It will help you get started.

2 Read Petra and Hans’s article about how to prepare a school newspaper (pages 129-130) and put the headings (1-6) above the correct section (a-e). There is an extra heading.
1. What about printing your newspaper?
2. Helen Porte of Huxlow School’s English Department gives some advice:
3. How to make your school newspaper interesting!
4. Why is it a good idea?
5. What can you do for your newspaper?
6. What can you include in your newspaper?

3 Look at the texts (A-E) from English school newspapers. What type of text is each one? Choose from the ideas mentioned in the article (section b / items 1-8)

A Raise Those Voices
The children take part in the workshops every Thursday after school. There will be a performance for the school on the last day of the Spring Term.
‘The Series of Unfortunate Events’ is by Lemony Snicket and the title means what it says. It is about three children whose parents both perished in a fire that burnt down their family home. They think one of

In pairs, read section c and find the person(s) who will ...

a. need to carry a modern type of equipment. ........................................
b. find information for you. .................................................................
c. go to a book exhibition in your area. ...............................................  
d. check all pieces of writing. .............................................................
e. prepare the newspaper on the computer. ........................................... 

In pairs, read Helen Porte’s advice in section e. Which piece do you think is the most useful? Explain why.
A lot of people who work in the media started out by writing for school newspapers. It’s a great way of learning how a story is put together. You can also learn about the different jobs there are and find out which one you might like to do. School newspapers also help students talk about the things they are unhappy with, which can lead to changes in the way a school works.

There is a lot going on in schools so you will never be short of ideas. Think about:
1. **News articles**: competitions, sports events, celebrations, school trips etc. Anything that affects people at your school (students, teachers, school staff).
2. **Club announcements**: Let everyone know about the various activities going on.
3. **Quizzes**: Set some challenging questions for your classmates.
4. **Recipes**: Share your favourite recipe with the readers.
5. **Artwork**: This is a great chance to show your artistic skills.
6. **Photos**: Take pictures of students, teachers and school staff in action. They will want to get your paper to see themselves in print.
7. **Reviews**: Write about the latest books, films and albums of your favourite artists.
8. **Songs**: What about publishing the lyrics of the latest hit?

If your team is small, then everyone has to do a bit of everything. If you are a big team, here are some of the jobs you can do.
1. **Editor**: The editor is the boss of the paper. Editors decide what sort of stories it should cover and who is doing what. They also correct or change pieces of text before they are printed.
2. **Cartoonist**: Students who are good at art could draw a cartoon or a comic strip.
3. **Photographer**: Find someone who knows how to use a digital camera. If your paper is photocopied, remember that the quality of your photos won’t be really satisfactory.
4. **Reporters**: They write news stories. This means that they should go to school events (matches, school parade, plays etc.) and come back with an article or an interview.
5. **Researcher**: You might need someone who is really good at digging up information. They should know how to use libraries and the Internet.
6. **Designer**: Your newspaper should look interesting. Find students who have design skills and can use computer graphics.
This is where you’re going to need help and advice. Students with good ICT skills are needed for this job. Most school newspapers are put together like this:

1. Write each story using a word processing package.
2. Paste the text to some desk top publishing software.
3. Arrange the stories on the page the way you want them.
4. Add the pictures, artwork and headlines.
5. Check the work very carefully - more than once.
6. Print it.
7. Run off loads of copies on a photocopier.

1. Try to invite someone from the local newspaper to talk to teachers and students who are interested in the idea of a school newspaper.
2. Get a team of volunteers together. Ask some teachers to help all students in the school to write for the newspaper if they wish.
3. Take advantage of everyone in the local area - they usually want to help out schools. Ask for interviews, prizes and sponsorships.
4. If printing costs are too high, put the newspaper on the Internet. The school ICT teacher can help you.
5. Set realistic targets. Try to produce one paper per term.

**Glossary**

- **word processing** noun [U] the organisation of a text in electronic form using a word processing program.
- **desk-top publishing** noun [U] the production of a page design for books, newspapers etc. by using a small computer and printer.

---

**Catchy headlines**

*If you want to attract readers, you need to find a catchy headline for your newspaper article. In pairs, read the following headlines and discuss:*

1. What kind of text is it?  2. What might it be about?  3. Is it interesting to read?

a. Hey TEENS! Can we have your attention, please?
b. Are celebs too skinny?
c. Caught on Camera!
d. The 9 Laws of Friendship
e. Destination ... OXFORD
f. The boy in the striped pyjamas - John Boyne
   "A small wonder of a book" GUARDIAN
g. FROM THE EDITOR
   Dear readers,
1. Listen to some students in Petra and Hans’s class talking about their newspaper and take notes of what each student is going to do.

Project

Our school Newspaper

**Phase One**

- Get in groups of five.
- Decide what to include in your newspaper. Try to include a variety of genres (article, quiz, story etc.) as well as a contribution from each member of your group.
- Look at your portfolios. Read each other’s work and discuss which pieces you would like to publish in your newspaper.
- Choose a representative of your group and present your Top 5 suggestions to the rest of the class. Appoint a secretary to write them on the board (e.g. A HISTORY QUIZ by Konstantinos P.)
- Vote for the texts you would like to include in your newspaper. Remember! YOU CAN’T VOTE FOR YOURS.
- Make a final list of ideas/texts for your newspaper. Now, you are ready to start working on them.
- Agree on a name for your school newspaper.
- Reread Helen Porte’s advice.

**Phase Two**

- What would you like to do for your newspaper? Look at your options in Petra and Hans’s article (section c), choose and form groups.

**Phase Three**

- You should all help with photocopying and stapling the newspaper pages together.
- Make a poster to advertise your newspaper.
- Run a newspaper kiosk in the school yard to distribute your newspaper (a couple of desks and chairs and an ‘Our School Newspaper’ sign will do). You can also distribute your newspaper to your family, friends, neighbours and local shop owners.
- Put your newspaper on the school site.

CLASS DISCUSSION: Have you ever done any of the activities mentioned in Task 2 above? Which ones would you like to do?

Tell the class.

Magda, Jennifer, Silou, Jean Paul, Nadia and Pedro have decided to spend two weeks together at the International Teen Camp in Greece in August. Read some of the e-mails they exchanged before their holidays and do the task on the next page.

Hi everyone!
Before we go on holiday, let’s help each other get organised. I’ve bought a first aid kit in case somebody has an accident. Last year, I took a first aid course at school and I’m actually proud of what I’ve learnt. What about clothes? Let’s make a list of what we need.

Jean Paul
PS. Magda, you should tell us what the Greek weather is like. OK?

… After the ITCamp, I’m spending some days on a Greek island, Syros. My friend Alex has invited me. Magda, will you please let me know some stuff I must remember when I meet Greek people? I know we’re very much alike but the more I know the better.

Thnx
Pedro

… I know how to get us going. Well, it’s really hot in Greece in August but the camp is in a region, Epirus, where it gets chilly in the evening. So, don’t forget to bring a couple of sweaters with you. Make sure you have a cap and some sunscreen with you. The sun can be really strong.

Can’t wait to see you all!

Magda

Guys,
What’s the currency in Greece? Euro, I suppose. I’ll have to go to the bank. I also need to renew my passport. How much money do you think we’ll need for two weeks? Are all meals included in the package?

What is the Greek cuisine like?

Silou

… I’m also going to bring my English Trivial Pursuit® and Scrabble®. We spent hours playing these games last year, remember? Magda, will you bring your backgammon? It’s ‘tavli’ in Greek, right? You see, I remember it.

Love,
Jennifer

… Will you please remember to bring me postcards from your country for my collection? Actually, I’d love some paintings if possible. Pedro, bring me a Picasso, will you?

PS Silou, trust me. The Greek cuisine is delicious!

Nadia

The story behind a famous painting

In groups, write a short story to accompany your favourite painting. The Writing Guide and your imagination will help you.

WRITING GUIDE

STEP ONE
1. Think about what you want to include in your story. (e.g. information about the people in the painting such as their name, age and family situation, where they are, what they are doing, their feelings, background events, what is going to happen next etc.).
2. Think about the tone of your story. Is it going to be sad, humorous, etc?
3. Decide who is going to be the narrator. You can write your story in the first or in the third person.
4. Write your first draft.

STEP TWO
1. When you finish, exchange drafts with another group.
2. Look at the painting your friends are writing about, read their story and make comments to help them make it more interesting and vivid. What else do you want to know about the people in the painting and / or the events in the story?
3. Help each other with language if necessary.

STEP THREE
1. Write your second draft.
2. If possible, scan the paintings, enlarge them and make coloured photocopies.
3. Put your work on display.
