Dazzling treasures of fantastic beauty from one of the world’s most famous museums are on display to mark the 300th anniversary of Peter the Great’s visit to England at the age of 25. This is the first time that all the Kremlin artifacts have come to London. Focusing on the 17th and 18th centuries, the exhibition covers one of the most brilliant periods in the development of Russian art and works of silver and gold. Coins from the period are also on show.

Admission is included in the price of a ticket to the Tower of London. Tickets bought two days in advance are £1.20 cheaper than normal.

Task 7 - Comprehension

Work in pairs. Read one of the leaflets and your partner will read the other. Ask each other questions.

a) Why is Bristol a good museum for people with physical difficulties?
b) Which museum has shown works by a Greek painter?
c) What has never happened to the Kremlin works of art before?
d) How much cheaper is the ticket when you buy it before going to the Kremlin exhibition?
Task 8

Read the two postcards in pairs, and find an example of change in each.

Postcard 1

Dear Thanassis,

I am having a great time here with my brother in the west of England. I think it is the most interesting place I have ever visited. As you know, Stephanos is at university here and so I am staying with him. He has been here for three years and he says the town is not the same since he first arrived here and things have changed. He says that when he first came here it was difficult to get around but over the years that has changed and now they have started new bus routes. As for my news, so far, I have been to the local museum and have learned a lot of things about natural history and wild animals. The paintings in the different rooms were wonderful too. And it didn’t cost anything either! After walking around all the galleries, I had a soft drink and a snack. That was good too. I haven’t bought any souvenirs yet, but perhaps I will get some tomorrow. Anyway, that’s about all for now.

All the best.

París.

Task 9

In pairs, circle the different changes in each postcard. Then use two of the changes as examples to tell your partner about changes you have seen.

For example: They have started a new bus route in our area.

Postcard 2

Dear Maria, I have just been to an amazing exhibition in the Tower of London. The curators of the museum have built a new room only for this exhibition. In fact, I have never seen anything like it before. It is full of all kinds of objects and statues. This is the first time these objects have been outside Russia until now. The exhibition includes priceless objects used in military processions. One of these is the Tzar’s Jerico Cap (helmet), which is richly decorated with gold, silver and precious stones. It is exactly as it was when the Tsar wore it and nothing has changed. Admission is included in the price of a ticket to the Tower of London, so it’s a good deal. Because I didn’t want to queue up for ages, I bought the ticket in advance from the Underground tube station. I saved myself £1.50 by doing this. Anyway, I must go. Speak to you soon!

Gerasimos.

Your English-speaking friends are on a European tour and have just come to Athens. Read their postcard to their friend Donna; find and correct the grammatical mistakes they’ve made.

Dear Donna,
We just arrived in Athens but we haven’t gone to the Acropolis yet. We have been to the Acropolis Museum though. It was full of works of art from all over Greece and I must say, we have had a great time there. In fact, everything seems lovely here and the sun makes it even better. The receptionist in the hotel says that the weather was very good recently and everyone hopes it stays that way. As for other news, I have heard that a new adventure park has just opened outside Athens, and perhaps we will go there later this week. By the way, I have bought some souvenirs when I was at the museum, so you can expect a gift when I get back home. After Athens we’ll visit some other countries in Europe.

Love, Erica and Gerhard

Task 4
You are on holiday and have taken these photos. Use some of them to make your own postcard to send to your friend. Tell your friend about your experiences: write about the places you have been to, what you have seen, what you have done, what you have bought so far and anything else you want to say. Remember to finish the postcard in a suitable way.

Let me start with...
What’s up?

Task 2

Look at the picture below. In pairs, find ten examples of things that people throw away in public places like rivers.

Make a list of the consequences from this behaviour.

Use the Internet to find examples of rivers which suffer from this kind of behaviour.

What a load of rubbish!
**Grammar**

**Zero conditional**

Look at the pictures below to help you match 1-5 with a-e and say what happens in each of the situations.

1. If we recycle paper a) we see that most of it is paper
2. If we reuse our plastic bags b) it takes a million years to decompose
3. If we examine our waste, c) we save 1,000 trees a day
4. If we throw away cans, d) it takes 300 years for them to decompose
5. If we don’t break up glass e) we save 5 cents on our shopping bill.

---

**First conditional**

In pairs, use the pictures a-e to help you think of an answer to each of the questions:

1. What will happen if we don’t clean the beaches?
2. What will happen if the headmaster sees you dropping litter in the school?
3. What will happen if we don’t recycle?
4. What will happen if we throw plastic bags in the streets?
5. What will happen if we dump our junk like old wood and metal in the countryside?

---

**Unless**

Look at the two example sentences. In pairs, underline the word which means ‘if not’.

* I can’t have a school party unless the classroom is clean.
* Unless I tidy my room, my mum won’t let me go out.
Lesson 1

Conditional sentences

Zero Conditional:
If + Present → Present / Imperative
Unless + Present → Present
We use Zero Conditional to state a fact or a truth, and to give instructions.

First Conditional:
If + Present → will + infinitive
Unless + Present → will + infinitive
We use First Conditional to state or predict the future result of a present action.

Task 1
Match the grammatical form to the sentences below.

a) We will live in a rubbish dump unless we recycle now.

b) If you see litter on the street, pick it up and throw it in a rubbish bin.

c) If we recycle today, the world will be a cleaner place tomorrow.

d) If I eat an ice cream, I put the wrapping in the bin.

Task 2
Read the information and answer the questions in bold.

A. We use if + present to talk about possibilities in the future and their results
   If + present tense → will + infinitive

   Example: If we put our litter in the bin, the school yard will be clean.
   What will happen if we don’t put our litter in the bin?

B. We use if + present → present to talk about a fact or to give instructions.
   If + present tense → present tense

   Example: If you want more advice about recycling, ring our hotline 801 11 11111
   What do you do to get more information?

Reading

Pre-reading

Task 1
The three teenagers below wrote letters to the local newspapers about problems caused by pollution and litter that exist in the area where they live.

In pairs, match the following statements according to the titles of these Greek newspapers.

1. Unless the new Mayor succeeds in his effort to restore the original architecture, the city will suffer.
2. Supermarkets and other shops will have to pay a huge fine if they dump their rubbish in the streets.
3. Many people will become ill and die if infected mosquitoes bite them.

A Επιθετικά δάγκειου πυρετού
Θύμα του η νοτιοανατολική Ασία και «ένοχες»
η αστυνομία και η μετανάστευση...

B Τα Τήρανα πληρώνουν το τίμημα της
περιβαλλοντολογικής ελευθερίας

C Μεγάλα πρόστιμα για τα σκουπίδια
επιβάλλει ο Δήμος Αθηναίων
Do you think the following statements are true or false? Why?

i) The Albanian government will not allow people in Tirana to use cars.

ii) The Albanian government will encourage people to throw away their old cars.

iii) There are clean toilets and washing areas in the Gypsy camps in Aspropirgos.

iv) You will pay 50 Yuan if a policeman sees you throwing rubbish in the street in Beijing.

v) People in Beijing will change their habits because of the Olympic Games.

Read these 3 letters quickly to check if you are right. Then read the texts again and the possible solutions for each problem more carefully. In pairs, discuss the three solutions and then decide which you think the best solution for each problem is.

A. I’m called Agnieska and I live in the centre of Tirana. Some days on my way to school the smoke from the cars makes me feel dizzy and sick. It sounds incredible but in the 1980’s there were only 2000 cars in Tirana. Now there are 300,000 and most of them are in the city centre each day. Unless the government does something about the smoke and the smog, many people will have breathing problems. The result is terrible air pollution and sometimes during the day the air is so full of dirty smoke that we can’t breathe. This is absolutely terrible and according to the European environment agency, traffic in Tirana produces 50 kilograms of pollution for every Albanian each year. What people do not realize is that lead in fuel causes a decrease in intelligence and if the government does not test to see if this is the case with children in Tirana, the children will have problems in school. The mayor says that, if necessary, he will stop people driving old cars and make drivers pay fines if their car creates pollution. I quite like this idea and I think it will work.

Solutions: a) get newer cars b) ask the European environment agency for help, c) test children to see how much lead they have.

B. I’m Marios and I live near the town of Aspropirgos outside Athens. There is a camp of Gypsies near us. The people who live there have to live under terrible conditions. For example, there is nowhere for them to put their rubbish and so it piles up. Some people throw litter out of laziness but others do it because there are no bins. There is so much waste like empty cans of coke, packets of crisps and other waste that even with a light breeze all the litter blows everywhere. There are no proper bathrooms or places to wash themselves and many children get ill. Over a period of time, this will get worse. It’s a crying shame to see this in our country. If you walk around the camp, you see all kinds of things like empty tubes of toothpaste or old bars of soap lying on the ground. Sometimes when it rains the drains get blocked and the camp floods making the place a mess. Do the mayor and government not understand that people get ill if where they live is dirty? He even says that the people in the camps will have to pay a fine if they don’t clean up the rubbish. This is not right and local people should write to the government or environmental organization and ask them for support.

Solutions: a) build a better camp, b) get the government to build bathrooms, c) encourage people in the area to take action to help.

C. My name is Deng and I come from China. I live in Beijing, which is a city of over 15 million people. Just before dawn each morning, the streets are clean but by the end of the day there is enough litter to fill an Olympic sized swimming pool! Because of the Olympic Games in 2008 the government wants to make the city clean and it is trying to encourage people to change their bad habits and to be more responsible for their rubbish. Now it is a crime to throw rubbish or litter in the street. For example, if you drop litter or throw cigarette butts on the road, the police can fine you 500 Yuan on-the-spot. Although this is a good idea and they do it to help, I don’t think it will change anything. In a big city people always think someone else will clean up the mess. This is a disgrace. They don’t understand that it is everyone’s responsibility to keep their city clean. Unless people learn to respect where they live, nothing will change and the problem will remain the same. We need to educate people about the importance of living in a clean environment. After all, it’s for their own good, so why don’t people want to change their bad habits? Solutions: a) make people pay a fine if they throw litter in the street, b) tell people to stop producing rubbish, c) teach people about the importance of keeping their city clean.

Task 4 Which child i) lives in a city which is bigger than Athens; ii) wants the government to help solve the problems; iii) likes the idea of fines; iv) talks about children in schools?

Recycling - Pre writing

Task 1
Look at the photograph. Is there one of these bins near your house? What does the poster tell people to do with their rubbish? How does recycling help the environment? What other advantages does recycling offer the local council?

Task 2
In pairs, look at the facts on recycling and decide what we SHOULD do to help the environment. What will the results be if we don’t? Try to use ‘if’ and ‘unless’ in your statements.

FACT
More than half the paper and cardboard in the UK is made from recycled paper

FACT
Life in water is often most strongly affected because water spreads pollution easily and because we often dump our waste in water

FACT
The human race drinks six hundred million cans of coke a day! If an empty can weighs 2 grams, think of how many thousands of kilos that is each day.

FACT
Making an aluminium can from recycled material uses one twentieth of the energy needed to make a new can

FACT
People in the UK recycle ten times more glass today than 5 years ago and the cost of drink in bottles is lower.

FACT
Less pollution is not only good for wildlife and nature - human health benefits from less pollution as well. That means lower medical bills, and a better quality of life.

Writing
Task 3
An English-speaking friend is thinking of starting a recycling club in the area where s/he lives. Your friend wants to know if it is a good idea. Look at the leaflet and write a letter to give your opinion.
Lesson 3 Recycling as art

Project  Task 1

Your class wants to get involved in the campaign to make people aware of the dangers our planet faces. Look at the pictures of environmental issues in different parts of the world, and a recycling idea. Decide as a group which idea you think will be most helpful. Decide in your group the roles you need to create an awareness campaign.

Example:  
- The Aral Sea will disappear  (See relevant site on page 190)
- You can recycle wherever you are; at home, school or outside. If each of us recycles, we can make a difference to our world.

Task 2

In the listening lesson, you heard about using old rubbish to create art. Look at this picture from the site: www.ecoart.gr. Discuss as a group the things the artist used to create a piece of art.

Imagine an English-speaking friend of yours wants to start creating art from junk. Write a short note to your friend telling him/her what you know about this kind of art (you can get ideas online at www.ecoart.gr or www.johndahlsen.com). In pairs, decide what the steps to follow are to create a piece of art from waste and junk.

Make your own work of eco-art.
